for Mac®

ABBYY® Lingvo®

All the words that you need

Installing and activating ABBY Y Lingvo for Mac

To install the application, run the **ABBYY Lingvo.dmg** file from the setup disk.

To activate your copy of ABBYY Lingvo for Mac, enter your serial number into the window that appears when you run the application for the very first time. This product requires activation over the Internet. For more information, please contact the ABBYY technical support service: www.abby.com/support, support@abby.com.

Looking up a word in the text

Full dictionary entry

To open the full entry for a word or phrase, select the word or phrase and press **⌘L**.

Brief dictionary entry

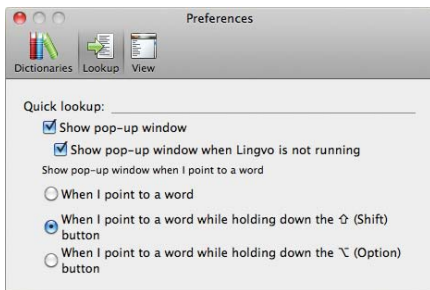

To see a brief dictionary entry for a word, point to the word with mouse. The brief entry will appear in a pop-up window.

Customizing mouse lookup

To customize mouse lookup:

- Select **Preferences**
- Click the **Lookup** tab
- Select the desired settings:

Note: For mouse lookup to work correctly, you must enable access for assistive devices.

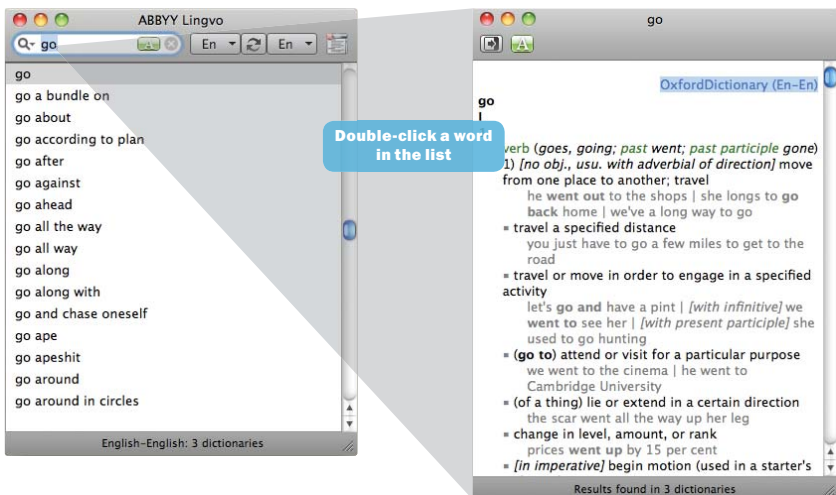

Important! To be able to use the keyboard shortcuts or mouse to look up words, you must install the application in the Applications folder.

Looking up a word

- Type the word in the search field
- Press **Enter/Return**

Tip: To look up a word you see in the list of words in the main window, double-click that word.

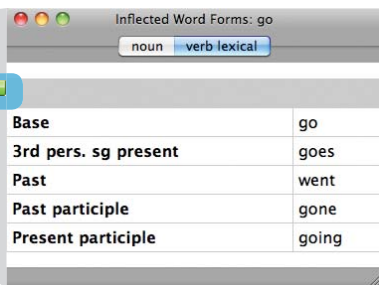

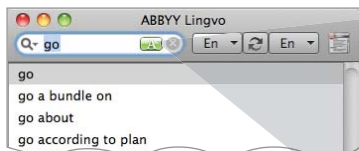

Important! You can use the keyboard shortcuts or mouse to look up words only in Cocoa-API-based applications (e.g. Safari, Pages). The full list of Cocoa-API-based applications on which this feature has been tested is available in the technical support section on www.abbyy.com.

Viewing inflected forms

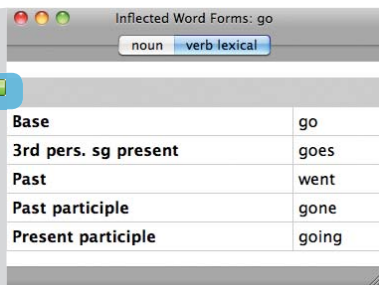

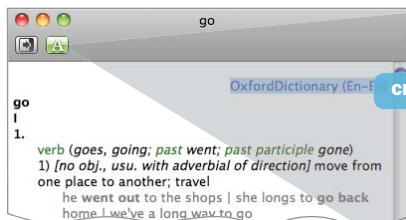

1. In the main window:

- Type in your word
- Click 

2. In the entry window:

- Click  In the entry for the word
